Dear Ms. Bradshaw

I would like to thank you and the Board of Directors of H.A.B.I.T for your continued support and funding to ensure the successful completion of my high school courses. These funds enable me to complete my math and science courses in an environment that best supports my learning style. I have recently completed my Grade 11 Physics course with an A and have started my Grade 12 Advanced Functions course. The funding from H.A.B.I.T helps to pay for the one-on-one instruction of these courses. Without this financial support completion of these courses would be difficult. Being able to learn at an individualized pace, supported by an instructor who understands how I need to learn since my injury, is a key component for my success and being accepted in the field I wish to pursue. I am looking to apply to University when I complete high school. Please thank the Board of Directors on my behalf.

Sincerely yours,
